

About the company

Systemax Podemski[®] since 1995

Mission: *The use the best practices and potential of knowledge for the development of our clients.*

Our cutting edge

The difference between us and other consulting and training firms is our highly **individual approach** to every client, which often results in **cooperation for many years**.

We constantly **look for new solutions** which combine the development of communication technologies with new trends in enterprise management and the best **business practices**.

There are areas in which we gained the **highest qualifications**. However, all the time we raise our competences both in theory – participating in post-graduate studies, trainings and conferences as well as in practice – executing **implementation and training projects**.

We are experts in the following areas:

- **quality management**
- **natural environment protection**
- **work safety and hygiene (BHP)**
- **safety of food products**
- **information security**

Specialists

Our staff includes consultants and trainers with the highest professional qualifications and extensive **practical experience**.

We provide specialists and auditors of management systems (**ISO, HACCP,**) work safety and hygiene (bhp) specialists, experts in quality statistics (including **six sigma,**) measurements and measuring equipment, risk management and environmental protection engineers.

Proven systems

We develop, implement and audit management systems, preparing firms and institutions for certification. To date we have executed **over 50 certified implementations**.

Effective trainings

We provide trainings in the following scope: **work safety and hygiene (*bhp*)** (introductory and periodic,) **fire protection (*ppoż*)** (evacuation drills and practice in the use of fire-fighting equipment,) environmental protection law, **1st aid**, development of management systems to be implemented (**ISO, HACCP, information security**.)

In the scope of providing 1st aid we prepare the personnel in workplaces with the use of a 1st aid dummy to perform CPR, apply dressings and operate resuscitation equipment.

Over 2 000 persons annually take part in our work safety and hygiene (*bhp*) trainings and our trainings for auditors and representatives of management boards have been appreciated by **over 500 participants**.

We conduct surveys among the participants regarding their satisfaction and opinion on the trainings' usefulness. The results reach over **9 out of 10 points** on the scale.

Time and money efficiency

Outsourcing services – ordering services which are not the core business of the company from a specialist firm can result in **considerable savings**. The entrepreneur does not have the high direct or indirect costs connected with employment of his workers – which can reach **150% of the value** of the net pay.

On a regular basis we **provide services** in the scope of work **safety and hygiene (*bhp*)** and **fire protection (*ppoż*)** services, for representatives and auditors of management systems as well as in the scope of calculation and optimization of fees for the use of environment.

Credible partner

Since 2002 our company has been a member of the **Lower Silesian Chamber of Commerce** (www.dig.wroc.pl) and since 2003 partner of several **international certification bodies**.

Systemax Podemski[®] is accredited by the Polish Agency for Enterprise Development (**PARP**) providing consulting services within programs financed by the EU. (more at www.parp.gov.pl).
